SUMMARY

Certified offensive and defensive cybersecurity practitioner

Avid learner | Intrepid cyber competitor | IT professional | Communicator | Tenacious, collaborative problem-solver

CERTIFICATIONS AND EDUCATION

GIAC Experienced Penetration Tester (**GX-PT**), **GIAC** Certified Penetration Tester (**GPEN**), **GIAC** Certified Incident Handler (**GCIH**), **GIAC** Security Essentials Certification (**GSEC**), **EC-Council** Certified Network Defender (**CND**)

SANS Technology Institute, Rockville, MD—Undergraduate Certificate in Applied Cybersecurity **4.0 GPA**

Cornell University, Ithaca, NY—Completed 62 credits towards BS in Communication, Minor in Applied Economics & Management

SKILLS AND COMPETENCIES

Areas: Penetration Testing (Network, Web, Wireless, Cloud, AI/LLM Red Teaming), Vulnerability Assessment, Digital Forensics and Incident Response (DFIR) (Windows, Linux, Mobile, Cloud), Open Source Intelligence (OSINT), Governance, Risk, and Compliance (GRC)
Security Tools: Nmap, hashcat, Wireshark, Impacket, Metasploit, Burp Suite, Sliver, Empire, Hydra, Pacu, Nessus, Masscan, BloodHound, Seatbelt, Rubeus, Mimikatz, AADInternals, Volatility, Shodan, sqlmap, curl, dnsdumpster, Ghidra, Spiderfoot, Autopsy, aircrack-ng/hcxtools
Scripting: Python, HTML, Powershell, Batch, Bash, JavaScript, SQL, C, PHP, Perl, VBScript
Operating Systems: Windows, Linux (Kali Linux, Ubuntu, Debian, Red Hat, CentOS), macOS, Android/iOS
Cloud technologies: Google Colaboratory (Colab), Amazon S3, Amazon AWS EC2, Microsoft Azure, Google GCP
Frameworks & Methodologies: NIST SP 800-61 (IR), SANS PICERL, NIST SP 800-171 (CMMC 2.0), NIST SP 800-161 (C-SCRM), NIST CSF, NIST RMF (SP 800-37), NIST SP 800-53, CIS Controls, Lockheed Martin Cyber Kill Chain, MITRE ATT&CK

RELEVANT EXPERIENCE

Cybersecurity Intern, LightFeather, Alexandria, VA

June 2025-Present

- Assist with internal security assessments, control documentation, contingency planning, and compliance for certification readiness.
- Develop and conduct cybersecurity training and testing programs for employees.
- Contribute to incident response documentation, operational process improvement, and policy creation.
- Source candidates, conduct interviews, and evaluate code challenges to deliver hire/no-hire recommendations for recruiting efforts.

Freelance Security Researcher, Synack Red Team (SRT), Redwood City, CA

May 2024-Present

- Perform comprehensive penetration tests and vulnerability assessments on enterprise hosts and networks to discover and report high-impact vulnerabilities. Collaborate with and support a curated community of cybersecurity researchers.

Senior Teaching Assistant, Developer, US Cyber Challenge (USCC), East Coast and West Coast Camps

April 2023-Present

- Assist leading industry and collegiate instructors in a highly selective, invitation-only cybersecurity boot camp and advise attendees on a broad range of cybersecurity topics in an accelerated practical training program, concluding with a capstone CTF.
- Administer student-facing social platform and devise, develop, and deploy bespoke automated feature enhancements. Lead a team to evaluate, implement, and monitor security controls and novel integrations with cloud resources.
- Responsible for support, technical guidance, and outreach to over 250 students before and during two week-long sessions per season, and for moderating alumni community engagement throughout the year.
- Advise executive team on and implement best practices for candidate engagement and outreach.

Freelance Consultant, Plainview, NY

December 2014-Present

- Recommend, design, deploy customized solutions using novel technologies, including cloud resources, to fit unique client needs.
- Troubleshoot, resolve technical issues for clients while providing comprehensive education and guidance.
- Create materials tailored to effectively communicate clients' messaging.
- Advocate and negotiate with vendors on clients' behalf.

AWARDS, HONORS, AND ACTIVITIES

Jerrold Bates Award 2024

Honored by USCC Executive Board at ACT-IAC Cybersecurity Summit for Excellence in Service to the Cybersecurity Community.

NSA Codebreaker Challenge 2022, 2023

Designated NSA Codebreaker Challenge High Performer.

National Cyber League (NCL/Cyber Skyline) 2021-2023 Seasons

Co-led collegiate team to top-3 placement. Top 1%-3% in several individual-participant games. Honored by SANS Institute.

SANS Institute Cyber FastTrack, Capture the Flag Competition and Scholarship Program Summer 2020-Spring 2023

Among top scoring players in a 48-hour qualifying competition. Recognized as exceptional applicant, awarded full scholarship.

US Cyber Challenge (USCC) National CyberBowl Championship 2020, 2021, 2022

Honored by White House at ACT-IAC Cybersecurity Summit for exceptional performance (1st, 3rd place) in national competition, including both practical enterprise network penetration and defense exercises and executive presentation components.

US Cyber Challenge (USCC) 2020, 2021, 2022

Recognized top scorer in intrusion analysis artifact challenge, invited to attend exclusive regional boot camp. Finalist at capstone CTF.

Core Netwars Tournament of Champions 2021, 2022

Achieved top 3 placement in non-veteran player category.

COVID-19 Vaccination Assistance Project 2020-2021

Modified open-source tools to auto-register vulnerable seniors for scarce COVID-19 vaccinations and coordinate transport. Self-directed.

US Navy's Hack the Machine Hackathon 2019, 2020

Twice placed 2nd in maritime hardware and software systems practical penetration competition.
